

SORRY WE MISSED YOU!

INVASIVE SPECIES SURVEYS IN YOUR AREA

Members of our OISC field crew will be in your neighborhood conducting surveys for the highly invasive plant, miconia (*Miconia calvescens*). If not removed, a single mature plant can put an entire forest at risk by taking over large areas of forests and displacing Hawai'i's native plants and animals. Therefore it is critical that we ensure streams and residential areas are miconia-free.

**WE WOULD GREATLY APPRECIATE
THE OPPORTUNITY TO BRIEFLY
SURVEY YOUR PROPERTY.**

Allowing OISC to survey your property is the easiest way to support conservation in Hawai'i.

See reverse side for details.

WITH YOUR HELP

WE CAN ERADICATE THIS
INVASIVE PLANT AND PROTECT
OUR WATERSHEDS.

**TO SCHEDULE YOUR SURVEY, YOU
CAN EITHER:**

- **Online form:** www.oahuISC.org/Access-Permission
- **Call us:** 808-266-7994, Mon-Fri 7am-3pm
- **Email us:** oisc@hawaii.edu
- **QR code:** Use your camera or QR code scanner app to go to the form.

Both of these miconia plants were found in different yards.
We're looking for plants as small as 1 inch up to 50 feet.
Mahalo to these residents for letting us remove this invasive plant!
